

Projects

Hygiene Promotion / Physical Health

Implement participatory hygiene promotion, water-use education activities, including rainwater harvesting, solid waste management and waste water management. The project will train participants in each district to teach/facilitate the project in the affected communities.

The following locations were identified for assistance with water and sanitation and/or health and hygiene promotion. Other locations in affected provinces will also be considered pending baseline study. *Projects will be implemented from January 2006 – November 2007.*
